## INDEPENDENT AUDITORS' REPORT

To the Board of Directors of  
Walker Rose, Inc.

We have audited the accompanying statement of financial condition of Walker Rose, Inc. (the "Company") as of December 31, 2005. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on the statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Walker Rose, Inc. as of December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

### 2. Summary of significant accounting policies

#### *Cash and Cash Equivalents*

The Company considers money market accounts to be cash equivalents.

#### *Valuation of Investment in Private Investment Company*

Investment in private investment company is valued by the management at fair value utilizing the net asset valuations provided by the underlying private investment company, unless management determines some other valuation is more appropriate. Substantially all of the underlying investments of the private investment company are comprised of cash and cash equivalents and readily marketable securities.

#### *Fee Revenues*

Fee revenues are recognized based on the terms of the related contracts and financial information received by management reflecting the performance of the fund managers.

#### *Income Taxes*

The Company complies with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, and based on enacted tax laws and rates applicable to the periods in which the differences are expected to effect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount considered more likely than not to be realized.

#### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
